

# Ignite Student Engagement

## Technology Solutions to Transform Learning

The key to transforming learning through technology is ensuring that it is planned, implemented, and supported with both students and teachers in mind. Bloom and LG can help to ensure success at each of these critical phases.

### Help Students Thrive with the LG CreateBoard™

Technology is most likely to improve student achievement when it facilitates opportunities for student choice and autonomy, collaboration between peers, and differentiating learning. The LG CreateBoard inspires endless creativity and collaboration for every student to succeed.

#### Encourage Student Autonomy

Allow students a personalized view.

#### Elevate Collaboration

Collaborate in real time.

#### Empower Every Student

Individualize Content to Suit Your Students' Learning Styles
