

## Transformative Support for Teachers: Personalized, On-Site Expertise to Enrich Classroom Technology Integration

### Elevate Your Educational Experience with Bluum's Embedded Coaching

Studies tell us that teachers' loss of knowledge following a professional development training can be quite substantial- we call this "knowledge decay." Alongside this knowledge decay, few schools can devote the resources and calendar time to support the breadth and depth of training that it takes to truly integrate a powerful edtech tool into a teachers' pedagogical practices long term.

### Benefits of Bluum's Embedded Coaching

- **Combat Knowledge Decay:** Ongoing, in-person guidance helps teachers retain and apply new skills.
- **Deep Integration:** Coaches facilitate the incorporation of edtech tools into everyday teaching.
- **Customized Training:** Professional development aligned with your school's specific needs.

### Partner for Success

- We align with your district-wide tech initiatives while adhering to Bluum's best practices.
- We will help to foster meaningful and effective educational approaches to leveraging technology in the classroom.

*"I am beyond thankful that we get to have our Coach on campus for the entire year. He is professional and incredibly good at what he does. Having our Coach on campus is every teacher's dream when they are presented with new educational technology."*

- Elementary School Teacher | Houston, Texas

**88%** of Educators Agree  
that technology supported by coaching  
increases flexibility in teaching and  
improves student learning!

**95%** Gained Significant  
**New Teaching Strategies**  
Through Coaching

**100%** of those who have participated  
in the **one-on-one coaching**  
sessions agree that:

- ✔ Now their edtech is useful.
- ✔ Feel comfortable integrating the tech into their classroom instruction.
- ✔ Told us that student engagement is higher when they use their edtech.
- ✔ Using the edtech increases their flexibility in teaching, personalizes their students' learning, and positively impacts their student learning.

## Testimonials from Past Embedded Coach Customers:

*"Our Coach's teaching experience brings so much richness to his coaching; he thinks like a teacher and knows fully the profession's challenges. He is a great listener. He challenges me to push past my comfort zone to learn new tools that will serve me and my students."*

*"Having our Coach in the building is an amazing advantage and asset! Otherwise, we would have a new piece of tech and no idea of what all it was capable of."*

*"I want to commend our Coach on his professionalism and flexibility. His work ethic and enthusiastic approach to coaching have made a difference in my scholars' learning. Our sessions provided the support and content needed to personalize instruction while enabling students to participate in the language of their choice. THAT was a huge step forward for my students. Thank you!"*
